3. Boats operating after sunset (when the dam light comes on) must have properly functioning Coast Guard-approved running lights. Implicit in the above is that these lights must be on! ## Section 3

### Operating Restrictions

1. Boats operating within 100 feet of any shore-line, floats, docks, launching ramps, swimmers, downed towed persons or anchored, moored or drifting boats, or in any cove or inlet are limited to a slow minimum-height swell speed; one that creates no wake. The boat operator will be responsible for any damage or hazard caused by his wake. (Operational)
2. Between the buoys and the shore, no traffic patterns are established. Outside the buoy line, towards the center of the lake all boats must follow a counter clockwise traffic pattern; i.e. the nearest shore should always be on the boat operator's right. This includes the "neck" end of the lake as well as the main body. The counter clockwise pattern must also be observed when dropping off skiers and tubers at docks and recreation areas. Do not follow behind a skier or persons being towed by a motor boat. Maintain a minimum of 100 feet. (Operational)
3. At all times sailboats under sail only and all hand and foot propelled craft have the right-of-way over motor boats. ALL BOATS MUST STAY WELL CLEAR OF SWIMMERS AT ALL TIMES. (Operational) Adopted 12/5/07

This means operating a watercraft in a manner that consciously, willfully and wantonly creates a substantial and unjustifiable risk to the safety of persons or property in, upon or along the waters of Lake Heritage. Involves gross deviation from the standard of care that a reasonable operator of a watercraft should observe under the circumstances. A person who operates a boat in the manner described above may also be subjected to prosecution under the laws of the Commonwealth of PA. (Operational)
4. It is illegal to operate a boat while under the influence of alcohol or a controlled substance. (Operational)

## SECTION 10 Zebra Mussels and Invasive Species Quarantine

1. All watercraft being brought into Lake Heritage will require seven-day quarantine unless the watercraft has a Watercraft Re-Entry Pass. If the member is only removing the watercraft for a short time (less than two hours) then only a Watercraft Re-entry Pass showing the time of departure from the lake will be required. Upon re-entry of this watercraft, the Watercraft Re-entry Pass will be shown to the gate security staff, and the time and date will be noted. If the watercraft is removed from the lake for longer than two hours, then the quarantine procedures of paragraph 2 will be followed. Note: All forms will be available at the gate house or office.
2. If quarantine is required, the owner must complete the information section of the Watercraft Quarantine Worksheet before reentering Lake Heritage. \*Follow quarantine security procedure as defined in paragraph 11 "Quarantine Procedure". The owner must provide dry storage, either indoors or under a full tarp for a seven-day period. In addition, the owner must complete the quarantine checklist provided with the Worksheet. Special attention should be given to the areas where the aquatic life can "hide" such as live wells, bilges, bait buckets, engine cooling systems, and anchor chains and ropes. The owner is then able to put the watercraft into the lake.
3. Members with a Watercraft Re-Entry Pass must enter the front gate with their pass for validation by the security person. They must complete the information in the "RE-ENTERING LAKE" part of the form. The pass will be reviewed by the security staff member. If the paperwork is signed, indicating that the watercraft has not been in other waters, the watercraft may enter and launch in the lake immediately. If not, the watercraft will be subject to the seven-day quarantine procedure referenced above (See paragraph 2). The security staff member will initial the pass and give the member an orange quarantine tag. The pass will be kept in the security building.
4. Should a member with a watercraft in quarantine desire to move the watercraft from Lake Heritage in order to use it in another body of water, no Watercraft Re-Entry Pass will be provided and the boat may be used outside Lake Heritage. However, when re-entering Lake Heritage the quarantine process will begin as described in paragraph 2. Member will remove the orange quarantine tag and give it to the Security staff member at the gatehouse.
5. Members removing their watercraft from Lake Heritage property, with no intention of placing their watercraft in another waterway (such as going out for maintenance, permanent home, etc.) should stop at the Shady Grove recreation area parking lot to complete the applicable portion of the Watercraft Re-Entry Pass. The security staff member will then note the date and time, then initial the pass. The pass will be given to the watercraft owner
6. Vendors doing business at Lake Heritage may go to the office for a vendor certification form. The completed form must be mailed or delivered to the office to receive a Vendor's Pass. Only certified vendors, the PA Fish and Boat Commission and local emergency agencies will be allowed to bring a non-member watercraft into Lake Heritage.
7. This policy, along with an education document on invasive species must be signed by members each year prior to getting their boat stickers.
8. All forms related to the Invasive Species and Zebra Mussel Quarantine Policy will be available at the LHPOA Business Office.
9. Violations of the Invasive Species Quarantine Policy: Due to the serious nature of invasive species infestations, fines have been set for any violations of the policy. Any deviation to the above procedures will result in a fine assessment of \$300.00 and a ban of subject watercraft from using Lake Heritage for one year from the date the fine is assessed.
10. While this policy pertains primarily to trailered and powered watercraft, all members of the LHPOA are required to

implement similar protective measures when bringing any watercraft back into the community after use in other waters. Power washing canoes, kayaks, and paddle boards, allowing life preservers and vests to dry, etc. will provide an additional layer of protection in keeping invasive species out of our lake.

11. Quarantine Procedure:

- a. Gatehouse staff will maintain a separate boat log book of the member's name, lot number, boat registration number, date and time of arrival. The member will complete the required forms. Member will move boat to the Shady Grove recreation area parking lot, if unoccupied, to complete the paperwork. This will get the boat out of the line of traffic. Member completes the required paperwork and returns it to the security staff and will be given an orange quarantine tag. The member takes the boat to his/her residence or boat storage location. The Member covers the boat under a full tarp and then secures the tag to the boat
- b. If the Shady Grove recreation area is occupied, the member may take the boat to his/her residence or boat storage location. Member completes the required paperwork and returns it to the security staff. Member then stores the boat as outlined in paragraph a. above and secures the tag to the boat or trailer.
- c. The roving security patrol staff will verify the boat is tagged and covered and will pick-up the paperwork if it has not been already returned to security. If the member is not at home, a security staff member will call for the paperwork to be delivered. Periodically, the roving security patrol staff will confirm that the boat is tagged and covered throughout the 7-day timeframe.
- d. The patrol vehicle will have tags for use in the event the member fails to tag the watercraft. The roving security patrol staff member will affix the tag and record the number, date, location, and time. The seven-day quarantine period begins at this time.
- e. At the end of the 7-day quarantine period the member should return the paperwork and tag to security and is then free to launch their craft into Lake Heritage waters. Adopted 6/10/2015

## **ARTICLE XI-A SKIING AND TOWING REGULATIONS**

### **Section 1 Operating Restrictions**

1. The restricted size of Lake Heritage and the use of the lake for water skiing and towing of individuals place a heavy burden of responsibility for safety on all boat owners and towed individuals alike. When there are more than twelve boats with skiers or other towed person(s) in the main portion of the lake, members are advised to consider the safety hazard before adding themselves to the traffic problem.
2. On Saturdays, Sundays, and Holidays water skiing hours will be between 9:00 A.M. and until the strobe light above the dam is on. (The 9 A.M. weekend and Holiday starting time is established for the benefit of early-morning fisherman, and to reduce the morning noise-level.) (Administrative) Adopted 3/5/2003

### **Section 2 Pattern of Operation**

1. Boats towing more than two persons must be followed by a pick-up boat. (Operational)
2. No more than two skiers or other towed persons per boat will be allowed on Saturdays, Sundays and Holidays except by written approval of the Board of Directors (for Regatta, Special Events, etc.). (Operational).
3. Skiing and towing of other persons must be in a counter-clockwise pattern around the lake. In addition to the boat operator, a competent observer must be in the boat in a position to observe the progress of the person being towed. A competent observer is a person who has the ability to assess when a skier is in trouble, knows and understands the water skiing hand signals, and is capable of helping a skier. In addition, a competent observer must be at least 9 years of age. (Operational)

### **Section 3 Equipment**

1. All skiers and persons being towed must wear a Coast Guard approved personal flotation device ('PFD') Type I, II, III, V. (Operational)
2. Tow ropes shall be no longer than 80 feet. (Administrative)
3. Skiers or other persons being towed shall not swing out into the path of any boat. (Operational)

5. All downed skiers or persons being towed must be retrieved immediately. (Operational)

### **Section 4 Safety Requirements**

1. Any skier dropping a ski is responsible for any damage caused by that ski. Dropping a ski for the purpose of single-

skiing in the main boat traffic pattern is prohibited. If dropping a ski, the skier should cut to the right of the boat (toward the shoreline) and drop the ski at approximately 100 feet from the shoreline (i.e. in line with the buoys). The patrol boat operator is authorized to pick up skis found in the main traffic pattern and issue a violation notice to the operator of the boat involved. (Operational)

2. Skiing within coves or inlets, picking-up or dropping-off skiers within 100 feet from any shoreline, dock or swimmer is prohibited. (Operational)
3. Skiers and all towed persons shall not come closer than 100 feet to any shore or dock while under power in the main part of the lake; i.e. south of the fishing pier. In the narrow end of the lake (i.e. north of the fishing pier) boats, skiers and towed persons must remain within the buoy marked channel. Towed U-turns are prohibited in this channel. Boat operator must observe the 100-foot rule at all times. (Operational)
4. The boat owner is responsible for the conduct and actions of the skiers and towed persons. Skiing or towing in a dangerous or reckless manner or under the influence of intoxicants will be grounds for the Patrol Boat operator or a designated representative to order the offender off the lake immediately for the remainder of that day. (Operational)
5. Debris and dropped skis can be hazardous to water skiers, towed persons and speeding boats. Boaters are encouraged to pick-up and remove any debris found floating in the lake. (Administrative)

## Section 5 Fines/Suspension Review Board

A Fines/Suspension Review Board will be established by the Board of Directors to handle appeals by boating violators. The Fines/Suspension Review Board will consist of five (5) members of LHPOA in good standing appointed annually at the Board of Directors Reorganization Meeting for 1 year terms. They will serve at the pleasure of the Board of Directors. No member who is associated with Security or is a Director in LHPOA may be appointed to the Review Board. ## Section 6 Appeals

1. Anyone issued a warning/fine for a boating violation may appear before the Fines/Suspension Review Board within thirty days (30) of the date that appears on the warning/fine letter to appeal their case. However, failure to appear before the Review Board, unless a request in writing is made to appear before the BOD, will be tantamount to pleading guilty and is acceptance of the fine/suspension that was proposed. However, any member may request to appear before the BOD in lieu of the Fines/Suspension Review Board. This request must be in writing and addressed to the Review Board who will then forward the request to the Board of Directors without a recommendation. Adopted 3/3/2004 Revised 12/6/2006

If a suspension is already in place, one day will be added to the suspension for each day the fine is unpaid. Additionally, fines past due by 90 days will result in legal action to collect as per Article XVI resulting in additional costs for which the property owner will be responsible. Adopted 10/01/08
